EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gregory J. Maier on 12/2/04.

The application has been amended as follows:

In claim 3, line 9, "the interference power" has been changed to ---an interference power---.

In claim 5, line 3, "the reference signal" has been changed to ---a reference signal---.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to anticipate or render obvious the claimed spectrum spread receiver comprising: **an interference amount extraction unit which extracts an amount of interference based upon the received signal obtained on the basis of a beam; a plurality of normalizing units which normalize the signals that have been subjected to the phase variation removing process based upon the amount of interference;** in combination with a path detection unit which detects a plurality of multi-path waves from the reverse spread signal, a plurality of beam forming units which forms beams by using an adaptive algorithm based upon the time-sequential positional information that is received on the basis of the path; a plurality of transfer path estimation units which calculate a transfer path estimation value based upon a receiving signal obtained on the basis of a beam, and carry out a weighting process in accordance with the signal amplitude and a removing process on the phase variation, based upon the results of the estimation; a combining unit which combines all the signals that have been normalized; and a determining unit which determines the signal after the combining by the combining unit in the manner explicitly claimed in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Temesghen Ghebretinsae whose telephone number is 571-272-3017. The examiner can normally be reached on Monday-Friday 8:30 a.m. to 6:00 p.m..
